LightHouse™ Client Workstation
Pre-Configured with LightHouse™
Specially Configured for LightHouse™ Clients by Dell™ Computers

LightHouse™

Total Unity. Total Control.

LightHouse™ LCWS

Hardware Specifications

General Specification (non-specific to LightHouse™ OEM configuration)

- **Energy Smart power management settings** enabled out of the Dell factory, consumes up to 54% less power than systems disabling power management.
- **Energy Star 4.0 certification**, available on select configurations.
- **Energy Efficient, Intel® Core 2 Duo processors** can deliver high performance with excellent energy efficiency.
- **System Uptime with RAID 1** support provides additional assurance that single hard drive failures will not cause system failures.
- **Proactive Security** features with Intel® vPro™ technology. Helps simplify many security functions including guarding against malicious attacks, isolation of virus infected PCs and fast security patch deployment to help keep your system safe and secure.
- **TPM 1.2** helps protect the network from unauthorized access, while enabling multi-factor authentication with smart card and biometric readers to enhance security capabilities for email, web access and data protection.
